# RAKYAT MALAYSIA?

Pada pendapat saya, isu macam agama bila kita tengok 10-20 tahun dulu semua orang boleh duduk bersama tanpa masalah. Cuma bila isu-isu macam politik dibangkitkan, masalah mungkin timbul.

It's easy to say that RUU355 does not concern the non-muslim but what about cases in Syariah courts where non-muslim life has been affected like Indira Ghandi or Subashini? In a multi-racial society, we as Malaysian should think collectively as to what is the best for our society.

If we use Islam as our guiding principle and if we value the Islamic principles, we should think about the context of what is Islamic. We need to think about our priority as a society. What really matter for us as Malaysians?
